💼 Experience

Founder
FinTech Educator & Full-Stack Developer
iTradeAIMS (Self-Employed), Birmingham, UK   *2011–Present*

- Built and scaled iTradeAIMS, a digital trading education business featuring live indicators, automated bots, premium courseware, and an active user community.
- Developed "Banana EA" and 50+ Pine Script indicators with global reach, 1.2K+ followers, and real-time trading signal deployment.
- Authored "Trading Chaos: The AIMS Way" eBook; later transformed into a 3-phase video course with 1,000+ paid users.
- Published "The Elliott Wave Principle" (Amazon), supported with automated wave-counting scripts and strategy dashboards.
- Delivered WordPress/WooCommerce sites (e.g., Bewdley Farm Shop, Splashbacks Birmingham), integrating SEO, Stripe, custom delivery tools.
- Led all product design, roadmap planning, user research, and iterative releases based on community feedback.

🗂 Selected Projects

- **iTradeAIMS.net** – All-in-one trading platform: Discord-linked courses, MQL4 indicators, Pine scripts, membership & learning portal.
